September Gem

SEPTEMBER GEM

A charming golden yellow button with strong wiry stems. It blooms in September on plants of medium height—a gem for the florist as a cut flower—a gem for the gardens, too.

MAYBELLE

Its large deep reddish bronze or rust colored flowers produce the true fall color effects. The blossoms have many petals, curled and fluffy. Blooms Oct. 15.

MARILYN

Lovely large light bronze fully double flowers with slightly recurved petals. Height 15 inches; matures Oct. 5.

ORIENTAL

An oriental sheik of the garden and just as gorgeously and colorfully dressed in a two color combination of pink and cream. Flowers are decorative—plants of medium height. Blooms Sept. 15.

YOU DATH'S VIVID

A lovely large vivid red flower, measuring $3\frac{1}{2}$ inches across. The beautiful full flowers are the calendula type. Matures Oct. 20. Height 18 inches.

SOLID GOLD

Large showy full ball like flowers, a robust type of upright habit. About 2 feet tall, matures Oct. 15th.

THORP

Here is a real beauty. It has large double rose vivid flowers, underlined with silver. Medium height. Matures about Oct. 5th.

ROSE QUILLED

Large full flower $3\frac{1}{2}$ " across, quilled petal silver pink outside, deep rose inside, very interesting effect. Grows upright 3 feet tall. Matures October 15.

VICTORY

The pure white outer petals of this fine pompon mum contrast well with its bright yellow center and glossy green leaves. Grows about 2 feet tall and begins to bloom in early October. Best white.

JEWELRY

This lovely deep rose pomp is worth its weight in gold. The flowers are well formed and perfect pompons, holding their color well even after several frosts. Those who love that ever popular pomp called Jewel, but have difficulty in bringing it through the winter, will love and find that Jewelry will winter without any mulching, as it makes up strong heavy clumps with many shoots. Matures latter part of October.

RED RIDING HOOD
